# Farm Cash Receipts 2020

Manitoba posted 2020 farm cash receipts of \$7.02 billion, up \$369 million or 5.5 per cent from 2019 and a new record! Canola, wheat, hogs, cattle and soybeans were the top five sectors for cash receipts. Crop receipts contributed 62.2 per cent of total receipts for 2020 and livestock brought in 33.6 per cent while direct payments provided 4.2 per cent of receipts.

Canola had a banner year in 2020, generating \$1.62 billion in farm cash receipts for Manitoba, a big new record. This represents 23.1 per cent of total Manitoba farm cash receipts and over 83 per cent of the increase in crop receipts for 2020 versus 2019. Wheat was stable year-over-year at \$1.13 billion, while hogs took third spot with receipts of \$1.05 billion for 2020, slipping 3.7 per cent from 2019.

Crop receipts grew 9.1 per cent to \$4.36 billion in 2020. Canola, wheat, soybeans and potatoes kept their top four positions while oats moved ahead of grain corn for fifth spot in 2020. Soybeans recovered 18.2 per cent from the recent low in 2019 to log \$513 million in receipts. Potatoes also enjoyed a strong recovery year after the disastrous 2019 harvest. Potato cash receipts achieved a new record of \$281 million while production also set a record of 24 million hundredweight, edging out Prince Edward Island for top producing province for the first time ever!

Oats took fifth place in 2020 with receipts of \$169 million, up 12.2 per cent while grain corn slipped 7.0 per cent to sixth place with \$161 million in receipts. Dry beans set a new record with receipts of \$118 million, up a remarkable 70.3 per cent from 2019, good for seventh highest among the crops. Dry pea cash receipts rose 47.2 per cent to a record \$43 million for 2020. Sunflowers also shone brightly with \$28 million in receipts, up 67.5 per cent from 2019.

Total livestock receipts decreased 1.4 per cent in 2020 to \$2.36 billion compared to 2019. COVID-19 caused production and supply chain disruptions particularly in the first half of the year.

Farm cash receipts for hogs decreased 3.7 per cent to \$1.05 billion, in 2020, however this value is 1.8 per cent above the five-year average (2015 to 2019). Prices were 8.2 per cent lower which caused the decrease in receipts. The 8.26 million pigs sold represented an increase of 6.4 per cent in 2020 compared to 2019. The number of Manitoba hogs processed in Canada and Manitoba international exports increased 5.6 per cent and 8 per cent, respectively in 2020.

Cattle and calf receipts increased by 0.4 per cent to \$619 million in 2020, prices were down 2.1 per cent; however the number of head sold went up by 2.6 per cent to 450,000 head. The "Buy Canadian Beef" promotions and COVID-19 disruptions south of the border may have increased sales in Canada. The value of interprovincial exports were up 16.7 per cent, which make up the majority of marketings. The value of international exports declined by 27.7 per cent and value of cattle and calves processed was down 6.6 per cent.

Receipts from supply-managed commodities were \$585 million in 2020, down 1.1 per cent compared to 2019. Supply managed commodities make up 25 per cent of total livestock cash receipts, milk sales contributing \$315 million, down 0.8 per cent while poultry contributed \$163 million, down 0.2 per cent and eggs contributed \$124 million, down 3.1 per cent.

Honey made money - \$43 million in 2020, which was an increase in receipts of 30.7 per cent compared to 2019. Manitoba ranked second only to Alberta, with 22 per cent of the Canadian honey receipts. Sheep and lambs receipts, at \$13.3 million, were 15.4 per cent higher than last year mainly due to a higher lamb prices.

Manitoba farmers received \$295 million in program payments in 2020, an increase of 15.8 per cent compared to 2019, led by Crop Insurance payments at \$172 million, private hail insurance at \$18 million, Agri-Invest at \$32 million and AgriStability payments at \$60 million. Direct payments comprised 4.2 per cent of total farm cash receipts.

A record was set for Canadian farm cash receipts at \$72.2 billion in 2020. This was an increase of 8.3 per cent compared to 2019. Crop receipts were up 14.8 per cent partly due to higher exports and prices while livestock receipts were down 1.1 per cent, due to disruptions caused by COVID-19, which primarily affected prices. Direct payments to producers were up 10.8 per cent. Manitoba's share of receipts was 9.7 per cent.

Farm cash receipts were up in eight provinces, led by Saskatchewan (+\$2.5 billion) and Ontario (+\$1.5 billion). These two provinces accounted for over two-thirds (71.2 per cent) of the national increase. Receipts were down in Newfoundland and Labrador (-\$18.1 million) and Nova Scotia (-\$7.6 million).
