

# SECTOR PROFILE AT A GLANCE

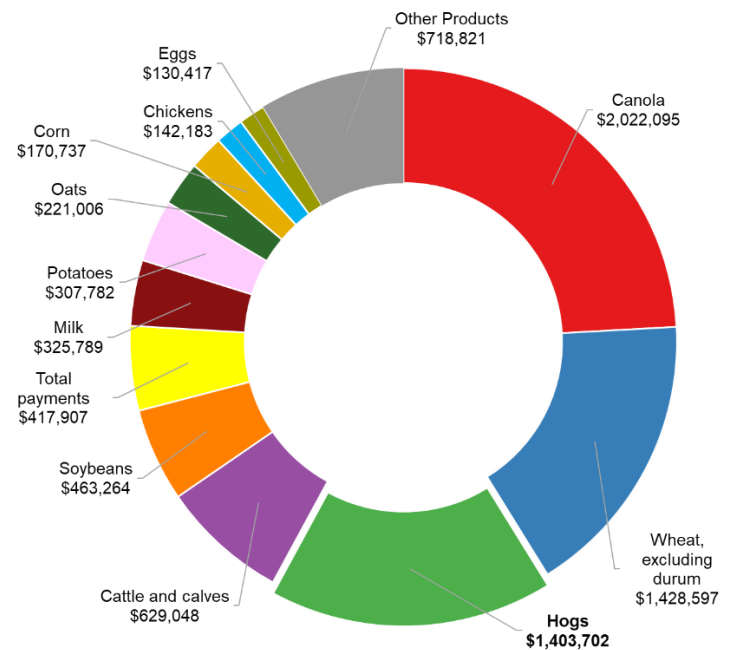

## Hog

### Highlights

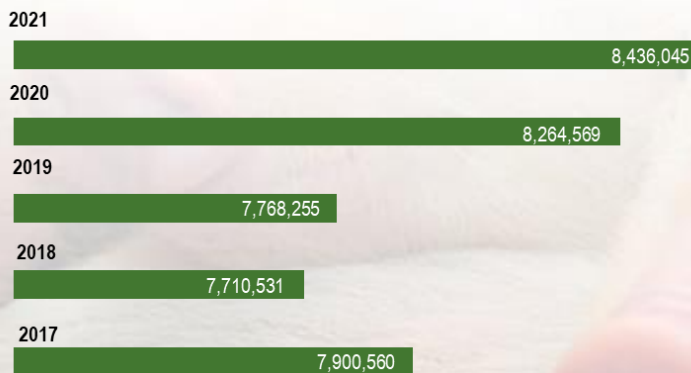

- Manitoba ranked number one in Canada with over 8.4 million hogs and pigs sold in 2021.
- The hog sector is Manitoba's third most important commodity in terms of farm cash receipts, at \$1.4 billion.
- Pork production in Manitoba is highly integrated, from genetics, feed manufacturing and specialized services through processing.
- Expansion of barns, feed mills and processing facilities is underway, with great attention to sustainability, animal welfare, food safety and quality.

## Marketing, Processing and Trade

- Producers market hogs through brokers or directly to processing plants and other entities.
- Maple Leaf Foods (Brandon), Hylife Foods (Neepawa) and 25 smaller facilities prepare products ranging from fresh and frozen pork to processed meats.
- Manitoba origin hogs processed in Canada were a record high at 5.0 million head in 2021.
- In 2021 pig producers and brokers exported 3.3 million live animals to 13 countries, valued at almost \$272 million.
- Processors exported \$1.5 billion of pork and pork products to 23 countries.

## DID YOU KNOW?

- Manitoba is the largest pig-exporting province in Canada, with 51 per cent of the national pig export.
- Pork is the most consumed meat globally.
- While meat makes up 60 per cent of the hog, the remainder parts are used to create value-added products, including pharmaceuticals (e.g., insulin), gelatin, brushes, leather and biofuel.
- Manitoba also produces wild boar and other specialized carcasses for exotic meat markets.
- The hog and pig sector embraces the use of manure as an organic fertilizer, an excellent source of nutrients for crop production.
