

Manitoba Health Card Registration for Ukraine Arrivals

Welcome to Manitoba!

Ukrainians Nationals traveling to Manitoba under the federal [Canada-Ukraine Authorization for Emergency Travel \(CUAET\)](#) are eligible for health care coverage as of the date they arrive in Manitoba. Manitoba Health will issue a health insurance card (or registration certificate) to you which covers each member of your family.

The health card (see picture below) confirms your eligibility to access health services, provided you continue to reside in Manitoba. Carry your certificate with you at all times, and present it whenever you or your dependants require health services.

Manitoba Health issues a card (or registration certificate) to all Manitoba residents, which includes a 9-digit lifetime identification number for each family member.

How do I apply for coverage?

Please complete a Manitoba Health registration form and provide copies of your identification documents (i.e. passports), your visa (either a visitor or a work visa is acceptable), and a Manitoba address where you will be residing. A temporary address such as a hotel is acceptable.
