

Carbonate dispersal in Manitoba – ongoing compilation and data analyses

By M.S. Trommelen¹ and I. McMartin²

¹ Manitoba Geological Survey, Manitoba Mineral Resources

² Geological Survey of Canada

CONTENTS

Downloads include:

1. Total carbonate in till matrix (<63 µm) (*PDF, dynamic document, changes yearly*)
2. Carbonate clasts in till (2-30 mm) (*PDF, dynamic document, changes yearly*)
3. Till-matrix total carbonate metadata, Manitoba (*Microsoft® Excel® file, dynamic document, changes yearly*)
4. Till-matrix clast metadata, Manitoba (*Microsoft® Excel® file, dynamic document, changes yearly*)

Suggested references

The following examples are provided to assist users in referencing the data based on format and access point.
