ASSESSMENT CREDIT DOUBLING ADJUSTMENT

The purpose of this informational notice is to advise stakeholders of forthcoming changes to the current Assessment Credit Doubling policy.

At present, approval of all Assessment Reports documenting work carried out on a claim or Mineral Exploration Licence (MEL) results in a doubling of the associated Assessment Credits.

Effective **January 1st, 2026**, Assessment Credits obtained through approved reports of required work will be granted at a factor of 1.5. Beginning **January 1st, 2027**, the multiplier will be further adjusted to 1.0, reinstating the original 1:1 system.

This phased adjustment is intended to provide stakeholders with a transition period to adapt to the revised credit structure.
