WHEREAS the Provincial Government made the decision to close the Curriculum Support Centre without consulting educators; and

WHEREAS the nearly 10,000 teachers that rely on the resources should have input regarding decisions that drastically affect their day-to-day classroom lessons and activities; and

WHEREAS transitioning to an online only database will create barriers for northern communities that do not have access to reliable internet; and

WHEREAS certain resources are “hands on” interactive activities that cannot be moved online; and

WHEREAS librarians are a valuable and needed resource in education; and

WHEREAS for the first time in a generation, education funding is not keeping up with enrolment and growth in the economy; and

WHEREAS teachers need more, not less, government support as they are facing significant increases in student enrolment with a large influx of refugee and newcomer students as well as a growth in the number of special needs students; and

WHEREAS the Provincial Government should be investing in the supports that help teachers so that Manitoba children are able to learn and reach their full potentials.
