## **WRITTEN QUESTIONS – ACCEPTED BUT NOT RETURNED**

MLA LAGASSÉ –

1. Many constituents of Dawson Trail have expressed concerns regarding Sio Silica. Last month, Carla Devlin, President of Sio Silica, publicly stated that the Sio Silica project “will go forward after approval of an environmental licence.” Could the Minister of Environment and Climate Change clarify whether any assurances, formal or informal, have been given to the head of Sio Silica that would justify that level of certainty?
  2. Given the President of Sio Silica’s public claim that the project is proceeding, could the Minister of Environment and Climate Change confirm whether the Provincial Government is actively considering a new environmental licence for Sio Silica, and also provide a clear timeline for such a decision?
  3. The previous proposal by Sio Silica was rejected due to risks to drinking water and unproven extraction methods. The President of Sio Silica mentioned the mine has a 15 billion tonne deposit of silica sand and that it has the intention of mining all of it. What new scientific evidence has the Provincial Government reviewed, and has it now concluded that this project can proceed without endangering Manitoba’s aquifers and drinking water for thousands of Manitobans?
