Site Assessment

For Large Livestock Operation Proposals

(300 Animal Units or more) whenever a municipal conditional use approval is required

Purpose

The establishment or expansion of a livestock operation that has 300 Animal Units or more and requires a municipal conditional use approval is subject to Part 7 of The Planning Act. This includes a review by the provincial Livestock Technical Review Committee (TRC). The Technical Review Committee Regulation requires a site assessment be undertaken by the proponent to help the committee complete its review and allow the public to comment on the proposal.

Assistance

Municipal tax roll number(s):

0043900.000

For assistance in completing this Site Assessment form, the following resources are available:

- Site Assessment Footnotes and Site Assessment Supporting Documents
- The <u>Land Use and Development Web Application</u> for Municipal Tax Roll Numbers, development plans and zoning by-law information.
- <u>Manitoba Agriculture</u> for assistance with animal unit calculations, manure application field acreage calculations, agriculture capability and Manitoba Agricultural Services Corporation yields.
- <u>Manitoba Environment and Climate Change</u> for information on environmental regulations and assistance for obtaining any necessary permits and/or licenses regarding manure storage facilities, confined livestock areas, manure management plans, and water rights.
- Groundwater Management for Wells Table listing wells on project site and spread fields.
- Livestock Technical Review Co-ordination Unit for additional help.

1.0 Description of Livestock Operation¹

Legal name of operation: Rocking U Feeders Ltd.	
Name of municipality: North Norfolk	
egal description: quarter, section, township, range, meridian or river lot(s):	
NE 17-10-10W1	

1.1 Nature of the Project ² Indicate if the proposal is for a new or expanding livestock operation:
☐ New operation
☑ Expansion of existing operation
☐ Change of existing operation (no increase in Animal Units)
If it is an existing operation, indicate when the operation was established: 2001
State operation's original name if different from current: Harold & Norman Unrau
Describe what is being proposed:
To expand the feedlot from 9,800 backgrounders (4,900 A.U.) to 14,700 backgrounders (7,350 A.U.).
State if any existing buildings will be replaced or demolished. If existing buildings will be reused or expanded, state how they will be reused or expanded. Note: Certain proposals involving the replacement or alteration of existing animal housing may be exempted from conditional use approvals and provincial technical reviews. To determine if you may be eligible, refer to the Frequently Asked Questions document and contact your municipal office.
All buildings will be reused for same purpose as they are currently

Prepare a Location Map of the project site. (see Location Map Example¹).

1.2 Project Site Plan

Prepare a Project Site Plan. Show all existing and proposed buildings, additions to existing buildings and any existing or proposed confined livestock areas as well as separation distances on an aerial photo. See the Project Site Plan Example and Guide for assistance.³

☑ 2. Project Site Plan attached.

2.0 Current and Proposed Type and Size of Operation⁴

In the <u>Animal Units Calculator</u> insert the total number of animals for each animal category associated with the current and proposed operation.

☑ 3. Animal Units Calculator attached.

3.0 Animal Confinement Facilities

Based on the nature of the proposed project, indicate each type of animal confinement facility⁵ to be found on site (post construction). Note the animal category of each facility or area and its size and check off the type of project it is.

Table 3-1: Animal Confinement Facilities

Type of structure		 Type of project			
Animal confinement facility ⁵		New construction	Replacement	Alteration	Use existing as is
Barn	Animal category				
(1)					
(2)					
(3)					
(4)					
(5)					
(6)					
Outdoor area	Animal category				
(1)					
(2)					
(3)					

■ None of the above

4.0 Confined Livestock Areas

Based on the nature of the proposed project, indicate each type of confined livestock area⁶ to be found on site (post construction). Note the animal category of each facility or area and its size and check off the type of project it is.

Table 4-1: Animal Confinement

Type of structure		Structure size (square footage)	Type of project			
Confined Livestock Area ⁶			New construction	Replacement	Alteration	Use existing as is
Feedlot	Backgrounders	1955085			√	
Paddock						
Corral						
Exercise yard						
Holding area						

	None	of the	above
_	140116	OI IIIC	above

5.0 Project Sites Unsuitable for Development⁷

Will the proposed confined livestock area and/or manure storage facility be located within Nutrient Management Zone N4⁸ or any Nutrient Buffer Zone?⁹

1 1/	√ 1	NI.
Yes	✓	Nο

6.0 Water Source

ına	sicate the type of water source for the operation (check all that apply):
	Pipeline (public)/water cooperative:
	Proposed well – location:
Ø	Existing well – location: NE 17-10-10W - well locations shown on Project Site Plan Map
	Dugout or reservoir - source and location:
	Other, describe:

6.1 Access to Surface Water¹⁰

I acknowledge livestock from my operation, located in a confined livestock area or seasonal feeding area, will not have direct access to surface water.

6.2 Water Requirements¹¹

Estimate the total water use for your project using the Water Requirement Calculator.

6.2.1	Maximum daily water use: 1	47000	
	⊻	Imperial gallons	☐ Litres
6.2.2	annual Maximum 🎎 water use: 5	3655000	
	· ☑		☐ Litres

☑ 4. Water Requirement Calculator attached.

7.0 Development Plan¹²

Using the <u>Land Use and Development Web Application</u> or the municipality's development plan by-law, provide the following information:

Table 7-1: Development Plan

Name of planning district (if applicable)	
Name of municipality	North Norfolk
Development plan by-law number	3-2010
Land use designation of project site	Rural/Agricultural Policy Area

8.0 Zoning By-law¹³

Using the <u>Land Use and Development Web Application</u> and the municipality's zoning by-law, provide the following information:

Table 8-2: Zoning By-law

Zoning by-law number: 785-2011 RM of North Norfolk				
Identify zone of project site: Rural/Agricultural Zone				
Identify minimum project site requirements as per zoning by-law:				
	Proposed project site dimensions	Zoning by-law project site requirements		
Minimum site area	160 acres	80 acres		
Minimum site width	1,094 feet	1,000 feet		
Minimum front yard	510 feet	125 feet		
Minimum side yard	167 feet	25 feet		
Minimum rear yard	32 feet	25 feet		

9.0 Separation Distances (zoning by-law)¹⁴

Using the proposed size of the operation (see <u>Animal Units Calculator</u>) and the type(s) of animal housing and manure storage facilities, provide the following:

Table 9-1: Separation Distances

	Indicate minimum separation distance required in the zoning by-law to the following listed land use features (if applicable). Check appropriate box(es):		minimum sep	feature is <u>less than</u> the caration distance required ng by-law complete this section:
	☐ Earthen manure storage facility	☐ Animal confinement facility	Provide actual distance	Provide location or name of feature (e.g., Red River)
	or	or		
	☑ Feedlot	☐ Non-earthen manure storage facility		
Residence/dwelling	4,430 ft	ft	1,960 ft	Residence 49.840833, 98.785278
residence/dweiling	,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	10	ft	
Designated area	11 011 6	.	17,915 ft	Seasonal Recreation Policy Area 238600
(non-agricultural)	11,811 ft	ft	ft	E1/2 36-10-11W

If any separation distance is less than the zoning by-law minimum, a variance order will be required from the municipality.

9.1	Land Use Map
Indic	cate the following on a Land Use Map (see <u>Land Use Map Example</u>):
	a) Location of the project site.

b) Land uses and significant features including dwellings (not related to the proposal) within a three-kilometre radius of the project site.

☑ 5. Land Use Map attached.

1	N	n	W	اما	Is ¹⁵

Are there any known unsealed abandoned wells on the project site or spread fields?

☐ Yes ☑ No

10.1 Well Locations

Provide Groundwater Management with locations of project site and spread fields. Groundwater Management will respond with a Wells Table listing wells, as identified on provincial wells database.

In provided Wells Table, add any known wells not already identified using additional rows. Provide additional information as needed.

Identify the location(s) of known abandoned and active wells on the Project Site Plan (Section 1.2) and Spread Field Maps (Section 18.0), as applicable.

6. Wells Table attached

11.0 Water Control works¹⁶

Are new control works being proposed?

☐ Yes ☑ No

Are you (the operator) aware of any seasonal, semi-permanent or permanent wetlands on the project site? If yes, identify the location(s) in the Project Site Plan.

_ Yes ✓ No

12.0 Manure Type and Storage¹⁷

12.1 Manure Type

Indicate the type(s) of manure that will be generated:

☑ Solid ☐ Semi-solid ☐ Liquid

12.2 Manure Storage Type and Construction

Indicate if the operation is planning to construct, modify or expand a manure storage facility¹⁸ or use an existing manure storage facility:

☐ Construct	Expand	Modify	☐ Use	✓ Not	
			Existing	Applicable	

Indicate the type of manure storage that will be used by the operation: (check all that are applicable)
☐ Concrete tank
☐ Steel tank
☐ Earthen manure storage facility
☐ Permanent solid manure storage facility
☐ Molehill manure storage facility
☐ Under-barn concrete manure storage facility (30-day capacity or greater)
☐ Permanent manure composting facility
☑ Field storage
13.0 Mortalities Disposal ¹⁹
Indicate the type(s) of mortalities disposal:
☐ Rendering
☑ Composting
☐ Incineration (in approved incinerator only)
☐ Landfill
Other (describe):
Does the proposal include a permanent site for composting mortalities that will use manure? ²⁰
Does the proposal include a permanent site for composting mortalities that will use manure? ²⁰ ☐ Yes ☐ No

14.0 Setback Distances from Manure and/or Mortality Sites to Water and Operation Boundaries

Use the following table to indicate the proposed setback distances from water and property lines. Provide the name of the feature.

Table 14-1: Setback Distances from Manure and/or Mortality
Sites to Water and Operation Boundaries

Feature	Structures	Minimum setback distance (m) ²¹	Proposed setback distance (m)	Provide location or name of feature (e.g., Red River)
	Manure storage facility	100 m		
	Field storage	100 m	>100m	Private Well
Surface watercourses,	Manure composting site	100 m		
sinkholes, springs or wells	Confined livestock area	100 m	586m	Private Well
	Mortalities disposal site	100 m		
	Mortalities composting site	100 m	>100m	Field Storage
	Manure storage facility	100 m		
Businest a King	Manure composting site	100 m		
Property line	Confined livestock area	100 m	10m	Rossendale Holding Co.
	Mortalities composting site	100 m		

If any setback distances have not been met, provide explanation below:

There is a signed agreement with Rossendale Holding Co. in place to put the feedlot pens right against the property line on the south side of the feedlot.

15.0 Building in Flood Areas²²

Using the links below, determine if any proposed structure will be in a Designated Flood Area.
Red River Valley Designated Flood Area
Lower Red River Designated Flood Area
Are any of the proposed structures in a Designated Flood Area?
☐ Yes ☑ No
16.0 Odour Control Measures (Project Site) Indicate which odour control measures are planned.
Manure storage cover:
☐ Yes ☐ No ☐ Not applicable
If yes, type of cover:
Shelterbelt planting: ☐ Yes ☐ No ☑ Existing shelterbelt
Other measure (specify):
17.0 Land Available for Manure Application ²³
17.1 Land Calculation
Fill out and attach the Manitoba Land Calculator ²⁴ to determine the minimum number of acres for the manure nutrients.
From the calculator, indicate:
Acres for Nitrogen uptake: ²⁵ 6073
Acres for Phosphorus removal: ²⁵ 3712
7. Copies of long-term Manitoba Agricultural Services Corporation (MASC) yields ²⁶ attached.

Contact Manitoba Agriculture at 204-918-0325 in Winnipeg if assistance is required.

☑ 8. Manitoba Land Calculator attached.

17.2 Long-Term Environmental Sustainability

From the Manitoba Land Calculator, indicate acres for Phosphorus balance:27 7423

✓ I acknowledge that the amount of acres indicated in the Manitoba Land Calculator up to _______ acres may be required for Phosphorus balance (one times crop P₂O₅ removal) and the long-term environmental sustainability of the operation.

17.3 Characteristics of Manure Application Fields²⁸

Fill out and attach the Manure Application Field Characteristics Table.

Provide Spread Field Maps of land available for manure application along with their agricultural capability (see Spread Field Map Example).

For all land available for manure application, attach copies of soil test reports that are no more than 36 months old and that demonstrate that soil phosphorus levels are below 60 ppm Olsen P in the top six inches (15 centimeters) of soil.

- 9. Manure Application Field Characteristics Table attached.
- ☑ 10. Spread Field Map (showing agricultural capability and field boundaries) attached.
- ☑ 11. Soil test reports for the land available for manure application attached.

18.0 Setbacks for Manure Application

Have the regulatory setbacks²⁹ and all water features been observed and excluded from land base calculations for this operation?

✓ Yes

19	9.0 Manure Iransportation and Application
Will	l a commercial manure applicator be used?³٥
	Yes ☑ No
Idei	ntify the proposed transportation method:
	Tanker
	Dragline
V	Solid spreader
	Other:
ldei	ntify the proposed application method(s), (check all that apply):
	Full/true injection
	Partial injection (Aerway or Coulter)
	Low-level broadcast application
Ø	High-level broadcast application
	Immediate incorporation
	Incorporate within 48 hours
	No incorporation – provide reason:
19	.1 Season of Application
	ntify the proposed timing of application (check all that apply):
 ☑	Spring
_	Summer (e.g., to a growing crop)
_ ⊴	Fall
20	0.0 Manure Application on Lands Subject to Frequent
FI	ooding or Inundation ³¹
Are	any of the lands available for manure application located in the Red River Valley Special

years?

☐ Yes ☑ No

21.0 Projected Truck Haul Routes and Access Points³²

Complete the following table:

Table 21-1: Truck Haul Routes and Access Points

Vehicle type	Estimate number of day acc	Access from PTH/PR onto site will mainly require a left or right hand turn (please check one)				Access onto PTH/PR from site will mainly require a left or right hand turn (please check one)				
	Provincial Trunk Highway (PTH)	Provincial Road (PR)	Provincial Trunk Highway (PTH)		Provincial Road (PR)		Provincial Trunk Highway (PTH)		Provincial Road (PR)	
	(РТП)		LEFT	RIGHT	LEFT	RIGHT	LEFT	RIGHT	LEFT	RIGHT
Truck		2				✓			✓	
Tractor trailer		1								
Other, specify										

Identify on a map the roads and access points that will be used for the proposed operation (see <u>Truck Haul Routes and Access Points Map Example</u>).

☑ 12. Truck Haul Routes and Access Points Map attached.

22.0 Conservation Data Centre Report

A Conservation Data Centre (CDC) Report is required for lands associated with the development where facility development or manure application will occur on Crown lands or, for all other lands, there is a change in land use or activity that could negatively impact the habitat of species at risk in Manitoba. Changes of use or activity include:

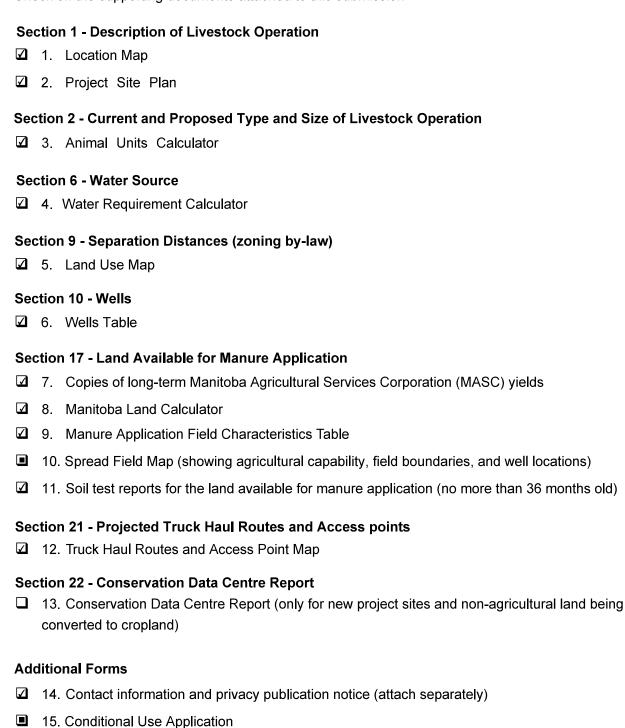

- the development of new sites
- land clearing
- conversion of land to cropland

A CDC Report is not required for existing operations that will not be utilizing Crown lands, not be developing or converting land, and not be changing practices in a manner that could impact habitat.

24.0 Supporting Documents Checklist

Check off the supporting documents attached to this submission.

■ 16. Other, specify:

Declaration

I do hereby verify that the information contained in the Site Assessment, and all required supporting documents, are accurate and complete to my knowledge.
