

ELEMENT S RANK: S1, S2, and S3 LIST

2024 JANUARY

MANITOBA CONSERVATION DATA CENTRE

WILDLIFE BRANCH

Metadata

Summary

List of Provincial S1, S2, and S3 ranked elements (species) extracted from the Manitoba Biotics database on January 2024.

The Manitoba Conservation Data Centre, in Manitoba Fisheries and Wildlife Branch, maintains this list and the Biotics database.

Version 3 query used to generate this list includes field name changes and addition of element track status.

Field	Definition
GROUP_TAXON	Element (species) groupings not formally recognized taxonomic units
FAMILY	Taxonomic family group
SCIENTIFIC_NAME	Element name including genus and specific epithet
COMMON_NAME	Element common name
S_RANK	Subnational (provincial) conservation status ranks. Ranks the species's rarity on a scale of 1 (rare) to 5 (common) (https://explorer.natureserve.org/AboutTheData/Statuses)
N_RANK	National (federal) conservation status ranks. Ranks the species's rarity on a scale of 1 (rare) to 5 (common) (https://explorer.natureserve.org/AboutTheData/Statuses)
G_RANK	Global conservation status ranks. Ranks the species's rarity on a scale of 1 (rare) to 5 (common) (https://explorer.natureserve.org/AboutTheData/Statuses)
ESEA	Provincial Endangered Species and Ecosystems Act listing
SARA	Federal Species at Risk Act listing
COSEWIC	Committee on the Status of Endangered Wildlife in Canada recommendation
TRACK_STATUS	Displays if element occurrences actively added to provincial database (Tracked). See definition table below.

Definition of Provincial, Federal Species at Risk Act, and COSEWIC codes

ESEA/SARA/COSEWIC	DISPLAY_VALUE
NL	Not Listed
SC	Special Concern
T	Threatened
E	Endangered

Definition of track status codes

TRACK_STATUS	DISPLAY_VALUE
Y	Track all extant and selected historical occurrences
P	Track selected extant Occurrences (i.e., partial tracking)
W	Track on a watch list only
N	Do not track
