Manitoba

Licence No./Licence n° 2152

Issue Date/Date de délivrance January 24, 1996

In accordance with the Manitoba Environment Act (C.C.S.M. c. E125)

THIS LICENCE IS ISSUED TO:

## **THE RURAL MUNICIPALITY OF ST. ANDREWS: The "Licencee"**

for the construction and maintenance of the Development involving the construction of riverbank stabilization works along River Road lots 106, 107 and 108 located on the west bank of the Red River immediately downstream of the St. Andrews Lock and Dam navigational channel subject to the following specifications, terms and conditions:

### **SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS**

- 1) The Licencee shall construct the Development in accordance with the *Geotechnical Report on the River Road Slope Stabilization Project at St. Andrews Lock and Dam*, filed as part of the Environment Act Proposal, dated October 6, 1995 and the additional information filed on December 18, 1995.
- 2) The Licencee shall, two weeks prior to start of any construction, notify the Manitoba Environment Director of the Eastern-Interlake Region of the anticipated construction schedule.
- 3) The Licencee shall, from April 1 to June 15 of each year during construction, cease all construction activities that may impact upon the stream channel and banks of the Red River which may affect fish mobility and fish habitat.
- 4) The Licencee shall, during construction of the Development and during spring melt, use sediment control traps. The traps shall be cleaned of silt and debris following construction.
- 5) The Licencee shall, during construction of the Development, minimize heavy equipment disturbance of the riverbank below the high water mark on the downslope side of the shear key trench.
- 6) The Licencee shall, during construction, ensure that any fuel storage areas established for the construction of the Development and any heavy equipment repair and maintenance associated with the construction of the Development, are located a minimum distance of 100 meters away from the Red River. The storage and equipment maintenance areas shall comply with the requirements of *Manitoba Regulation 97/88R - Storage and Handling of Gasoline and Associated Products Regulation*.
