

AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION

UNDER THE CLEAN ENVIRONMENT ACT

RE: THE CLEAN ENVIRONMENT COMMISSION AND PEMBINA MOUNTAIN CLAYS LTD., APPLICANT,

WHEREAS pursuant to the provisions of The Clean Environment Act, Pembina Mountain Clays Ltd., submitted an application to The Clean Environment Commission to prescribe limits in connection with an operation involving bentonite processing, the said operation being located on part of the south half of 7-3-5 WPM in the Rural Municipality of Stanley, Manitoba;

AND WHEREAS representations were made to The Clean Environment Commission by persons who are, or are likely to be, affected by an Order of the Commission prescribing limits in connection with the said operation;

AND WHEREAS The Clean Environment Commission held a public hearing on the 6th day of May, 1974, in the Town of Morden, and subsequently issued Order No. 360 on the 14th day of June, 1974;

AND WHEREAS the Applicant, on the 19th day of June, 1975, applied for a variation of Order No. 360 to permit an extension of time for the installation of contaminant control facilities and equipment;

AND WHEREAS the said Commission held a public hearing on the 3rd day of November, 1975, for the purpose of hearing evidence in connection with the application for a variation of the said Order No. 360;

AND WHEREAS the said Commission considered the said application on the 9th day of December, 1975;

IT IS HEREBY ORDERED THAT ORDER NO. 360 BE VARIED TO READ AS FOLLOWS:

1. The Applicant shall ensure that on and after the 31st day of May, 1976, solid particulate emissions from any part of the said operation do not exceed 0.57 grams per standard cubic meter calculated at 20 degrees Centigrade and 760 millimeters of mercury, measured at the point of emission.
2. The Applicant shall ensure that:

Cont'd . . .

- 2. (a) existing dust collection equipment is regularly inspected and properly maintained;
  - (b) additional dust entrapment facilities (bag-house filters) are installed to the full extent of the available space;
  - (c) the pulverizing process of the said operation is carried out only when the wind is not blowing in the direction of individual homes or residential areas; and
  - (d) a high standard of housekeeping and maintenance be implemented and continued in order to minimize the wind-entrainment of dust particles.
3. The Applicant shall ensure that on and after the 31st day of March, 1976, that part of the present operation that includes the secondary process of pulverizing, drying and processing the product to a moisture content of less than 25 percent is discontinued.

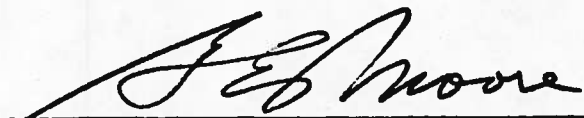

Cancelled

Order No. 360 as varied by The Clean Environment Commission becomes Order No. 360V

Order No. 360VC

Dated at the City of Winnipeg

this 12th day of DECEMBER, 1975.
