

AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION

UNDER THE CLEAN ENVIRONMENT ACT

RE: THE CLEAN ENVIRONMENT COMMISSION and ASPEN GROVE MOBILE VILLAGE, Applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, Aspen Grove Mobile Village filed a proposal with the Department of Mines, Resources and Environmental Management for the operation of a sewage lagoon system to be located in the NW $\frac{1}{4}$ of Section 25-6-6 EPM in the Rural Municipality of Hanover with discharge of effluent to a wooded area owned or legally controlled by the Applicant;

AND WHEREAS in the absence of limits being prescribed by a Regulation under the said Act, the proposal was referred to The Clean Environment Commission for the prescribing of limits;

AND WHEREAS no representations were made to the Commission by any person who is, or who is likely to be, affected by an Order of the Commission prescribing limits in connection with the said operation;

AND WHEREAS the Commission considered the proposal on the 25th day of October, 1976;

IT IS HEREBY ORDERED THAT

1. The Applicant shall ensure that the said sewage lagoon system is so constructed, operated and maintained as to:
 - (a) prevent the contamination of groundwater;
and
 - (b) minimize the release of offensive odours.
2. The Applicant shall ensure that the organic loading on the primary cell of the said sewage lagoon system, in terms of 5-day biochemical oxygen demand, is not in excess of 50 pounds per acre per day.
3. The Applicant shall ensure that no effluent is discharged from the said sewage lagoon system until a secondary lagoon or equivalent secondary treatment facility has been completed and placed in operation except with the permission of the Environmental Management Division of the Department of Mines, Resources and Environmental Management.

C-6-1185

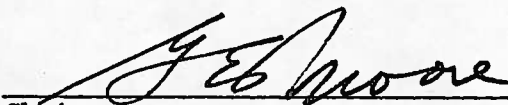

4. The Applicant shall ensure that, subject to Clause 3, there is no discharge of effluent from the said sewage lagoon system from the 1st day of November in any year to the 15th day of May in the following year except with the permission of the said Environmental Management Division.
5. The Applicant shall ensure that, prior to any release or discharge of effluent from the said sewage lagoon system the quality of the effluent is such that:
 - (a) the 5-day biochemical oxygen demand is not in excess of 30 milligrams per litre; and
 - (b) the total coliform content, in terms of the MPN Index, is not in excess of 1,500 per 100 millilitres of sample.
6. The Applicant shall ensure that the said Environmental Management Division is informed not less than 14 days before the release of any effluent from the said sewage lagoon system.
7. The Applicant shall ensure that, subject to Clause 3, effluent from the said sewage lagoon system is:
 - (a) discharged only to wooded land owned or legally controlled by the Applicant;
 - (b) not discharged within 1,000 feet of any residence.
8. The Applicant shall submit to the said Environmental Management Division, on or before the 1st day of May, 1977, pursuant to subsection 14(1) of The Clean Environment Act, a proposal for the installation of the following:
 - (a) secondary lagoon or equivalent secondary treatment facility; and
 - (b) equipment for the discharge of effluent to a wooded area owned or legally controlled by the Applicant.

9. The Applicant shall ensure that the installations proposed pursuant to Clause 8 are completed and placed in operation on or before the 31st day of December, 1977.

Order No. 635

Dated at the City of Winnipeg

this 23rd day of NOVEMBER, 1976.

Chairman,
The Clean Environment Commission.
