Mr. Rodi Sveistrup
Koch Fertilizer Canada, ULC
1400-17th Street East
Brandon, MB R7A 7C4

Dear Mr. Sveistrup:

Re: Koch Fertilizer Canada, ULC – Environment Act Licence No. 1535 RR – Notice of Alteration – Temporary Production Trial Period Extension

Receipt of your May 20, 2014 letter is acknowledged as a notice of alteration in accordance with Section 14 of *The Environment Act*.

The requested change to the Development as licensed is to extend the approved 12-month temporary production trial period until March 2016 to assess permanent infrastructure requirements for potential permanent operations.

Your letter states that Koch's continued assessment is that manufacturing of the temporary production trial product does not result in any significant additional adverse effects on the environment. The letter also states that Koch will continue to operate in compliance with the limits, terms and conditions of Environment Act Licence No. 1535 RR.

The potential environmental effect of the requested change to the Development as licensed is insignificant and considered to be a minor alteration in accordance with section 14(2) of *The Environment Act*. The request to extend the temporary production trial period at the Development as indicated in the May 20, 2014 letter is hereby approved. Approval for the temporary production trial period will terminate on March 31, 2016 and further extensions will not be provided. The submission of a notice of alteration would be required prior to implementation of any new permanent manufacturing systems at the Development.

If you have any questions, please contact Jennifer Winsor, P.Eng. at 204-945-7012.

Yours truly,
