

Notice of Environment Act Proposal

Manitoba Conservation and Climate has received a proposal pursuant to The Environment Act regarding the following operation and invites public participation in the review process:

RURAL MUNICIPALITY OF ELLICE-ARCHIE – McAULEY WASTEWATER TREATMENT LAGOON - FILE: 162.10

An Environment Act Proposal has been filed on behalf of the Rural Municipality of Ellice-Archie for the construction and operation of a new wastewater treatment lagoon for the community of McAuley. The new facility would be constructed immediately south of the existing lagoon in NW 11-15-29 W, approximately half a kilometre northeast of the community. The new facility would have two cells lined with a synthetic liner, and would treat wastewater from the community as well as truck hauled wastewater from other parts of the municipality. Treated effluent from the lagoon would be discharged to a drain to Scissor Creek between June 16 and October 31 of each year. The existing lagoon would be decommissioned once the new lagoon was operational, with dried sludge from the existing lagoon applied on agricultural land in the area. Construction of the new lagoon would begin when funding was available.

Anyone likely to be affected by the above operation and who wishes to comment on the proposal should contact Bruce Webb, Environmental Engineer, in writing or by email at Bruce.Webb@gov.mb.ca or by telephone at 204-945-7021, not later than May 25, 2020. Further information is available from the Online Public Registry: www.gov.mb.ca/sd/eal/registries/

Information submitted in response to this proposal is considered public information and will be made available to the proponent and placed on the public registry established in accordance with Section 17 of The Environment Act.
