Dear Ms. Burland Ross,

Re: Rural Municipality of Ellice-Archie – McAuley Wastewater Treatment Lagoon – Environment Act Proposal

The Rural Municipality of Ellice-Archie is proposing to construct and operate a new wastewater treatment lagoon to replace the existing wastewater treatment lagoon, to service the community of McAuley. The project requires approval from Manitoba Conservation and Climate and a corresponding Environment Act licence for the construction and operation.

As per the requirements of the Environment Act Proposal form, enclosed are:

1. Two (2) bound hard copies of the Environment Act Proposal report
2. One (1) electronic copy (CD) of the Environment Act Proposal report
3. Original Environment Act Proposal form attached to cover letter, with a copy contained in each document
4. The EAP application fee of \$7,500 (Cheque made out to the Minister of Finance).

The results of this proposal conclude that there will be no significant negative impacts to the environment as a result of the proposed project, provided the mitigation measures described are taken. The Rural Municipality of Ellice-Archie would like to complete the requirements of the Environment Act Proposal as soon as possible so they can move forward with the project in a timely manner.

If there are any questions or comments, please contact the undersigned.

Yours truly,

JR Cousin Consultants Ltd.

Oswald Wohlgemut, M. Sc.
Environmental Scientist

enc. Two (2) bound copies and one (1) electronic copy, original EAP form, application fee
