Chief John Stagg
Dauphin River First Nation
P.O. Box 58
Gypsumville, MB R0C 1J0

Dear Chief Stagg:

Re: Dauphin River First Nation Waste Transfer Station, Permit 45835

Enclosed please find the permit for your waste transfer station.

Please note that failure to comply with any condition of the permit may result in prosecution pursuant to the Waste Management Facilities Regulation.

Pursuant to Section 27 of The Environment Act, this permit may be appealed to the Minister of Sustainable Development by any person who is affected by the issuance of this permit within 30 days of the date of issue.

In addition to the enclosed Permit requirements, please be informed that all other applicable federal, provincial and municipal regulations and by-laws must be complied with.

If you have any questions concerning the permit or procedures, please call Mike Baert in Selkirk at (204) 782-9104 or via electronic mail at mike.baert@gov.mb.ca.

Yours sincerely,

Tracey Braun, M.Sc.
Director
Environmental Approvals Branch

c: D. Labossiere/D.Smiley, Environmental Compliance and Enforcement Branch

NOTE: Confirmation of Receipt of this Permit No. 45835 (by the Permittee only) is required by the Director of Environmental Approvals. Please acknowledge receipt by signing in the space provided below and faxing a copy (letter only) to the Department by June 28, 2017.

On behalf of Dauphin River First Nation

Date

Transfer Station Operating Permit

Permit No: 45835

Client File: 63655

In accordance with the *Waste Management Facilities Regulation*, made under The Environment Act, the **Dauphin River First Nation** is hereby permitted to operate a **Transfer Station**, to be known as the **Dauphin River Transfer Station** situated at **SW 29-34-5 WPM** in the Province of Manitoba

THIS OPERATING PERMIT is subject to being AMENDED, SUSPENDED or REVOKED under section 7 of the *Waste Management Facilities Regulation*.

THIS OPERATING PERMIT is issued subject to the following TERMS AND CONDITIONS:

General Terms and Operating Conditions

1. This permit expires on **May 31, 2022**.
2. The Operator shall maintain and operate the Dauphin River Transfer Station (the Facility) in accordance with the most current version of the *Waste Management Facilities Regulation* (M.R. 37/2016) and this Operating Permit.
3. The Operator shall maintain a copy of the operations manual developed pursuant to M.R. 37/2016 and a copy of this Operating Permit at the Facility or the premises from which the Facility is managed.
4. The Operator shall obtain approval in writing from the Director for any proposed alterations to the Facility before proceeding with the alteration.
5. The Operator shall not bury any waste or materials at the Facility or within the area identified on Crown Land Permit GP 67876 or subsequently issued permits.

Variance

6. In accordance with section 11 of the *Waste Management Facilities Regulation*, this permit is issued to the Facility with a variance for the following:
 - a) a locked gate is not required for the Facility, however access to the Facility must be restricted to a single access location on the perimeter of the development allowing vehicular traffic access to PR 513.

Materials Acceptance and Handling

7. Only recyclable metal goods, used automotive tires and household waste may be stored at the Facility.
8. Materials collected at the Facility for recycling must be segregated and temporarily stockpiled in clearly signed designated areas.

9. The household waste deposited at the site shall be removed at minimum every 30 days or at a frequency required by an Environment Officer.
10. The Operator shall remove any litter accumulated along the access road and around the perimeter of the site at minimum every 3 months or as required by an Environment Officer.

Dangerous Goods

11. The Operator shall not collect or store hazardous wastes at the Facility.

Burning of Combustible Waste

12. The Operator shall not allow burning at the Facility.

Monitoring and Reporting Requirements

13. The Operator shall conduct a monthly inspection of the Facility to ensure that materials stored on site are being managed to limit litter and waste from escaping out of the waste transfer bin(s) or recycling areas.
14. The Operator shall record the date of the inspection, the name of the person who conducted the inspection, any observations made by that person during the inspection and any corrective actions undertaken (i.e., repair fence, litter clean up, removal of unauthorized waste, etc.).
15. The Operator shall record the date, hauling company, landfill the waste was hauled to and weight or volume of waste hauled away from the Facility.
16. The Operator shall submit annually by March 1, starting in 2018, the records required by clauses 14 and 15 to the Environment Officer (Manitoba Sustainable Development) and the Senior Environmental Specialist (Indigenous and Northern Affairs Canada).

Construction

17. The Operator shall notify the Environment Officer at least 5 days and not more than 10 days before construction begins for developing the transfer station.
18. The Operator shall notify the Environment Officer when construction is complete and the first waste transfer bin is to be placed at the Facility to begin collecting waste.
19. The Operator or their qualified professional (Consulting Engineers) shall provide as constructed drawings of the Facility.

June 12, 2017
