# Transfer Station Operating Permit

**Permit No: 8639 P1**

**Client File: 17315**

In accordance with the Waste Management Facilities Regulation, made under The Environment Act, the **Municipality of Ethelbert** is hereby permitted to operate a **Transfer Station** to be known as the **Mink Creek Waste Site** situated at **SW 26-28-22 WPM** in the Municipality of Ethelbert, Province of Manitoba.

THIS OPERATING PERMIT is subject to being AMENDED, SUSPENDED or REVOKED under section 7 of the Waste Management Facilities Regulation.

THIS OPERATING PERMIT is issued subject to the following TERMS AND CONDITIONS:

## **General Terms and Operating Conditions**

1. This permit expires on February 28, 2023.
2. The Operator shall maintain and operate the Mink Creek Waste Site (the Facility) in accordance with the most current version of the Waste Management Facilities Regulation (M.R. 37/2016) and this Operating Permit.
3. The Operator shall maintain a copy of the Operations Manual developed pursuant to M.R. 37/2016 and a copy of this Operating Permit at the Facility or where the Facility is managed.
4. The Operator shall obtain approval in writing from the Director for any proposed alterations to the Facility before proceeding with the alteration.

## **Site Access and Control**

5. The Operator shall restrict access to the Facility when site supervision is not provided, with a locked gate, barrier or other system approved in writing by an Environment Officer.

## **Materials Acceptance and Handling**

6. Materials collected for recycling or reuse must be segregated and temporarily stockpiled in clearly signed designated areas. These areas must be maintained to control weeds, vectors and quality of the materials. The Operator shall have the materials removed regularly or upon the request of an Environment Officer, within the timeframe specified.
7. The Operator shall remove any litter accumulated along the access road and around the perimeter of the site at minimum twice annually or as required by an Environment Officer.
8. The Operator shall not bury or permanently dispose of any materials at the transfer station without written authorization from the Environment Officer.
9. The household waste deposited at the Facility shall be removed at minimum every thirty (30) days or at a frequency required by an Environment Officer.

**Hazardous Wastes**

10. The Operator shall collect and dispose of hazardous waste in accordance with The Dangerous Goods Handling and Transportation Act, other Provincial and Federal Regulations.

**Composting**

11. Prior to initiating any composting operation at the Facility, the Operator shall submit to the Environment Officer, for approval in writing, the following: the location of the composting windrows, feedstock piles, description of the base of the composting area to ensure the soils underneath are suitable, the types of materials proposed to be accepted, updated section of the Operations Manual specific to the compost activities, odour and vector management and the intended use of the finished compost.

**Burning of Specified Waste**

12. The Operator shall only burn separated and readily combustible materials such as boughs, leaves, loose straw, paper products, cardboard, non-salvageable untreated wood, and packing materials derived from wood, and only when there is an appropriate volume of this material. Plywood, composite board or other materials constructed with glues, finishes or preservatives must not be burned.
13. The Operator shall not burn any other products or materials; including but not limited to plastics, composites, rubber, manures, chemically treated fabrics, mattresses, finished furniture, or man-made synthetics.

**Revocation**

14. This Permit replaces Permit No. 3011.51 which is hereby rescinded.
