Material Recovery Facility Operating Permit

Permit No: 54757 P1

Client File: 72549

In accordance with the Waste Management Facilities Regulation, made under The Environment Act, **Penner Waste Incorporated** is hereby permitted to operate a **Material Recovery Facility** situated at **160 Grant Street** in Morden, Province of Manitoba.

THIS OPERATING PERMIT is subject to being AMENDED, SUSPENDED or REVOKED under section 7 of the Waste Management Facilities Regulation.

Definition

"**odour nuisance**" means a continuous or repeated odour, smell or aroma, in an affected area, which is offensive, obnoxious, troublesome, annoying, unpleasant or disagreeable to a person:

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public;

if the odour, smell or aroma

- d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director and within a 90-day period, from 5 different persons falling within clauses a), b) or c), who do not live in the same household; or
- e) is the subject of at least one written complaint, received by the Director in a form satisfactory to the Director, from a person falling within clauses a), b), or c) and the Director is of the opinion that if the odour, smell or aroma had occurred in a more densely populated area there would have been at least 5 written complaints received within a 90-day period, from 5 different persons who do not live in the same household.

THIS OPERATING PERMIT is issued subject to the following TERMS AND CONDITIONS:

General Terms and Operating Conditions

1. This permit expires on May 31, 2023.
2. The Operator shall maintain and operate Penner Waste Morden Depot (the Facility) in accordance with the most current version of the Waste Management Facilities

Regulation (M.R. 37/2016), the Plan developed pursuant to Condition 3 of this Permit and this Operating Permit.

3. The Operator shall develop and maintain a copy of the operations manual developed pursuant to M.R. 37/2016 and a copy of this Operating Permit at the Facility.
4. The Operator shall obtain approval in writing from the Director for any proposed alterations to the Facility before proceeding with the alteration.

Site Access and Control

5. The Operator shall provide site supervision when the public can access the processing area of the Facility.
6. The Operator shall restrict access to the processing area of the Facility when site supervision is not provided with a locked gate or barrier.

Odours

7. The Licencee shall not cause or permit an odour nuisance to be created as a result of the construction, operation, or alteration of the Facility, and shall take such steps as the Director may require to eliminate or mitigate an odour nuisance.

Materials Acceptance and Handling

8. The Operator shall not allow the disposal of industrial wastes, metal goods, construction and demolition wastes or tires at this Facility without the written approval of the Director.
9. The Operator shall not store loose or unsorted recyclables outside of the building without approval of an Environment Officer.
10. The Operator shall not store any solid waste at the Facility except in appropriate storage bins.
11. The Operator shall remove any litter accumulated along the access road and around the perimeter of the site at minimum monthly or as required by an Environment Officer.
12. Any waste or materials separated out during the process that is not to be reused, processed or sold shall be stored in a manner to prevent a nuisance and removed monthly or at a frequency required by an Environment Officer.
13. The Operator shall dispose of solid waste at a waste disposal ground operating under the authority of a permit issued pursuant to the Waste Management Facilities Regulation 37/2016 or any future amendment thereof, or a licence issued pursuant to The Environment Act.

Dangerous Goods

14. The Operator shall collect and dispose of hazardous waste in accordance with The Dangerous Goods Handling and Transportation Act, other Provincial and Federal Regulations.

Burning of Combustible Waste

15. The Operator shall not allow burning at the Facility.

Environmental Emergency Reporting

16. The Operator shall, within 90 days of the date of issuance of this permit, prepare and maintain an Emergency Response Plan in accordance with the Canadian Centre for Occupational Health and Safety emergency planning guidelines or other document acceptable to the Director.
