Hi Edwin,

Tervita has provided an estimate of \$40,000 for an Environmental Site Assessment to assess any impacts once we initiate closure. Currently, no waste is stored on site yet and our most recent groundwater monitoring report shows no impacts due to our Operations. Therefore, there isn't any associated remediation costs for Redonda at this time.

Thanks,

Andrea Snodgrass, RSO

Subject: EXTERNAL - FW: File No.6046-00 - 337HW Tervita Updated Cost Closure Plan

Good afternoon Andrea,

Regarding Clause 93 of the DGHTAL No 337 HW, the submitted closure plan assessment appears to not have the estimated cost to assess the impacts (Clause 93 a), and the estimated cost to remediate impacts (Clause 93 b). Do you have information on this?

The report does indicate the estimated cost to decommission the Facility (~\$115K).

Thank you,

Edwin Yazon

Good morning Edwin,

As described in my previous email, due to the engineering adjustment of the secondary containment within the Facility, Tervita has revised the Cost Closure Estimate that was submitted to Manitoba Conservation and Climate Change in January 2020.

As per Condition 93 of 337HW, please find attached revised Cost Closure Estimate for Tervita's Redonda Facility.

Should you have any questions or concerns, please don't hesitate to contact me.

Thanks,

Andrea Snodgrass, RSO
