Dear Michael Raess:

Re: Alamos Gold Inc. - Environment Act Licence No. 3390 - Notice of Alteration Approval

Thank you for your notice of alteration dated February 12, 2024 and revised monitoring program dated February 21, 2025, submitted on April 11, 2025. The department understands you wish to change the final discharge location for dewatering of the existing historic Wendy and East pits with additional water sampling and monitoring.

Specifically, the request is to discharge water from the historic pits via temporary piping directly to the Hughes River instead of to Farley Lake which flows to Farley Creek and then to the Hughes River. The quantity and quality of discharge water will not change from what was originally approved.

I approve the alteration as described in the revised monitoring program per Section 14(2) of The Environment Act. Bi-weekly updates, including sampling and monitoring results, are required to be submitted to Environmental Compliance and Enforcement throughout the discharge campaign.

All other clauses of Environment Act Licence No. 3390 remain in effect. This approval is available on the public registry at <https://www.gov.mb.ca/sd/eal/registries/index.html>.

If you have any questions regarding this approval, please contact, Jennifer Winsor, Senior Environmental Engineer, Environmental Approvals Branch at Jennifer.Winsor@gov.mb.ca or 204-945-7012.

For questions relating to the ongoing administration of the licence, please contact Cristal Huculak, Regional Supervisor, Environmental Compliance and Enforcement Branch at EnvCENorth@gov.mb.ca or 204-620-5797.

Sincerely,

Original Signed By
Agnes Wittmann
