Dear Colin Webster:

Re: Alamos Gold Inc. – Lynn Lake Gold Project – Gordon Mine Environment Act Proposal

During the public review period of the environmental assessment and licensing process for the Lynn Lake Gold Project – Gordon Mine, requests for a Clean Environment Commission hearing were received.

This letter is to inform you that based on the information provided in the Environment Act Proposal, I have decided to not recommend to the Minister of Conservation and Climate that a hearing be held. The potential environmental effects and potential mitigation strategies are well understood; therefore, a hearing would not add any new information in that regard.

This decision will be communicated to the public and Indigenous communities who participated in the environmental assessment and licensing process and may be appealed within 30 days.

If you have any questions, please contact Jennifer Winsor, P.Eng., Environmental Engineer, at Jennifer.Winsor@gov.mb.ca

Yours sincerely,

Original Signed by

Shannon Kohler, Director
The Environment Act
