**PUBLIC HEARING**

As no public comments were received, a public hearing is not recommended.

**CROWN-INDIGENOUS CONSULTATION**

The Government of Manitoba recognizes that it has a duty to consult in a meaningful way with Indigenous communities when any proposed provincial law, regulation, decision or action may infringe upon or adversely affect the exercise of the Indigenous rights of that community.

The Initial Assessment conducted for this project has concluded that the licensing decision does not have the potential to adversely affect the exercise of an Aboriginal or Treaty right. Crown-Indigenous consultation will not be undertaken for Mauser Packaging Solutions licensing decision. The facility is an existing operation in an industrial zoned area within the City of Winnipeg.

**RECOMMENDATION**

Comments received have been addressed through the provision of information and licence conditions. I recommend that the development be licensed under The Environment Act subject to the specifications, limits, terms, and conditions as described on the attached draft Environment Act Licence. I also recommend assigning the administration of the licence to the Winnipeg Region of the Environmental Compliance and Enforcement Branch.
