ACCEPTANCE OF FINAL LICENSE

Manitoba Hydro hereby accepts the Final License authorizing the development of water power at the Kelsey Site (formerly known as the Grand Rapid Site) on the Nelson River and the development of storage in the watershed of the said River, a copy of which Final License is attached hereto and marked Exhibit "A", and hereby undertakes to observe and fulfill all conditions which the Licensee is required to observe and fulfill under said Final License and under The Water Power Act and Regulations thereunder.

The aforesaid acceptance and undertaking shall bind the said Manitoba Hydro, its successors and assigns.

IN WITNESS WHEREOF the Corporate seal of Manitoba Hydro is hereto affixed attested by the hands of its proper officers in that behalf at Winnipeg in Manitoba this 11th day of February, 1966.

MANITOBA HYDRO
PROVINCE OF MANITOBA
DEPARTMENT OF AGRICULTURE AND CONSERVATION
WATER CONTROL AND CONSERVATION BRANCH

FINAL LICENSE FOR THE DEVELOPMENT OF WATER POWER

Kelsey Site, Nelson River

Issued in accordance with the provisions of the Water Power Act, Chapter 288, Revised Statutes of Manitoba, 1954, and amendments, and of the Regulations in force thereunder to govern the mode of granting and administering Provincial water-power rights.

WHEREAS Manitoba Hydro, a corporation duly incorporated by Act of the Legislature of the Province of Manitoba, and whose head office address is 820 Taylor Avenue in the City of Winnipeg, (hereinafter called "the Licensee") has completed and is operating a hydro-electric development at the Kelsey Site (formerly known as the Grand Rapid Site) on the Nelson River, in the Province of Manitoba;

AND WHEREAS the said development has been constructed in accordance with plans filed with and approved by the Director of Provincial Water Powers at Winnipeg, (hereinafter called "the Director") but without the issue to the Licensee of an Interim License under the provisions of the Water Power Act, R.S.M. 1954, Cap. 288 (hereinafter called "the Act"), and the Manitoba Water Power Regulations being Manitoba Regulation 95/45 and all amendments thereto (hereinafter called "the Regulations");

AND WHEREAS it is considered desirable to issue a Final License for the said development, and the Licensee has done all those things which in the opinion of the Director are required to be done prior to the issue of the said Final License;

AND WHEREAS the Licensee has duly executed an acceptance of the terms and conditions of this Final License and has undertaken to observe and fulfill all the terms and conditions which under this Final License and under the Act and Regulations thereunder the Licensee is required to observe and fulfill;
NOW THEREFORE, under authority of and subject to the provisions of the Act and Regulations thereunder this Final license is issued, granting to the Licensee:

(a) The right to impound, divert and use waters of the Nelson River at and near the Kelsey Site (formerly known as the Grand Rapid Site),

(b) The right to develop electric power and energy from the said waters,

(c) The right to generate, transmit, distribute, sell and deliver the said electric power and energy and for that purpose to use and occupy the lands of the Province hereinafter described, and

(d) The right to operate and maintain the undertaking the location and description of which is shown upon the record plans numbered and filed in the office of the Director at Winnipeg.

Subject, nevertheless, to the provisions of the Regulations and any other regulations now or hereafter in force governing the granting or administering of Provincial water-powers and the lands required in connection with the development and use thereof, and to the following special terms and conditions, namely:

1. The Licensee may divert and use continuously for the development of power at the said Kelsey Site all the water of the Nelson River which may be flowing at the said Site from time to time during the term of this Final License, subject, however, to the provisions of Section 72 of the Regulations.

2. The undertaking authorized to be maintained and operated by the Licensee under this Final License shall comprise the following: at the north end of an intake channel cut across neck of land on the west bank of the river, a reinforced concrete powerhouse with five vertical turbines each of 42,000 horsepower capacity (which may ultimately be extended to 10 vertical turbines subject to such extension being authorized by separate license in accordance with Section 67 of the Regulations) and a concrete structure completed in which a sixth
vertical turbine may be installed in the future; at the east end of
this powerhouse, a timber crib; a concrete dam with sluiceways on
a channel cut across neck of land on the east bank of the river; a
rockfill dam across the main river channel; a concrete headblock section
and earth and sand dykes; a standard gauge railway connecting the power
site with the Hudson Bay Railway at Pitt Siding; a transmission line
from the powerhouse to Thompson; and all plant machinery and equipment
for the complete development, generation and transmission of the electric
power available at the said Kelsey Site, all as shown by plans and
descriptions thereof filed in the office of the Director at Winnipeg,
as follows:
